<sup>1</sup> Based on ETSI TS 119 612 V2.2.1 (2016-04) 5.5.1.1 chapter

<sup>2</sup> Based on ETSI TS 119 511 V1.1.1 (2019-06) 4.3.2 chapter

2 Review of the system evaluation must be enforced in the following cases in order to confirm the results of the initial system evaluation certified in this document, to maintain the validity of certificate:

- once a year in the validity period of the Certificate (planned system evaluation review),
- responding to the main modifications in the system architecture or functionality (special).

3 Significant changes in the architecture or functionality of the system under operation must be reported by the Customer to the Certifier within 30 days after the modification went into operation. Furthermore, the Customer must send the documentation of the change in detail, which are commensurate with the former evaluation level. The Certifier evaluates the effects of the modification and decides on the necessity of a special system evaluation review in order to maintain the certificate validity.

4 When compliance is achieved, the Certifier fills out a Certificate Maintenance Record for the actual system state. The Customer must provide the terms of the planned or special system evaluation review.

## **Annex 2**

### **Document containing the requirements**

**ETSI EN 319 401 V3.1.1 (2024-06)** Electronic Signatures and Infrastructures (ESI);  
General Policy Requirements for Trust Service Providers

### Annex 3
